

TBS Buffer (pH 7.4)

TBS10-1L/TBS200/TBS200P

V2.0

Store at room temperature
For Research Use Only

■ Introduction

TBS Buffer (pH 7.4) is a pH-adjusted blend of ultrapure-grade tris buffers and saline solutions. When diluted to a 1X working solution, it contains 25 mM Tris, 150 mM NaCl.

■ Product Components

TBS Buffer (10X) (TBS10-1L)

TBS Buffer (10X)	500 mL	2 bottles
User's manual		

TBS Buffer (25X) (TBS200P)

TBS Buffer (25X)	TBS200	200 mL dilute	30 packs
User's manual			

■ Safety Information

Please wear gloves, lab coat and goggles while operating. Prevent contact product directly. In case of contacting, wash with large amount of water.

■ Storage

Store **TBS Buffer (pH 7.4)** at room temperature. Expiration date is labeled on the bottle/pack or box.
