

TBS Tween-20 Buffer (pH 7.4)

TBST10-1L/TBST200/TBST200P

V2.0

Store at room temperature
For Research Use Only

■ Introduction

TBS Tween-20 Buffer (pH 7.4) is a pH-adjusted blend of ultrapure-grade tris buffers and saline solutions. When diluted to a 1X working solution, it contains 25mM Tris, 150mM NaCl, 0.05% Tween-20.

■ Product Components

TBS Tween-20 Buffer (10X) (TBST10-1L)

TBS Tween-20 Buffer (10X)	500 mL	2 bottles
User's manual		

TBS Tween-20 Buffer (25X) (TBST200P)

TBS Tween-20 Buffer (25X)	TBST200	200 mL dilute	30 packs
User's manual			

■ Safety Information

Please wear gloves, lab coat and goggles while operating. Prevent contact product directly. In case of contacting, wash with large amount of water.

■ Storage

Store **TBS Tween-20 Buffer (pH 7.4)** at room temperature. Expiration date is labeled on the bottle/pack or box.
